# DCS

Disaster Communication System
Right people, right place, right now.

Automate Code Orange Responses

The DCS allows emergency departments to quickly organize staff during mass casualty incidents.

Intuitive automated SMS

Fan-out in Minutes

The DCS application replaces phone calls. It uses intuitive text messaging to automate the fan-out process. Responses are organized on a dashboard creating a clear picture for staff.

Increases Response Rate and Availability

- Connect to all staff in seconds
- Determine staff availability and proximity

No Downloads

- Cloud based
- No app required
- It works even if your infrastructure is down

Saves Lives

Right people, right place, right now.

Hospital Approved

Doctor Approved

Secure
